## PROFESSIONAL SUMMARY

BCA student (Rani Channamma University, expected graduation March 2027) skilled in HTML, CSS, JavaScript, and Python, with hands-on experience building clean, responsive web interfaces through independent projects. Combines a solid technical foundation with strong communication, problem-solving, and time-management skills. Seeking an internship or entry-level frontend development opportunity to contribute, learn, and grow as a developer.

## EDUCATION

### Bachelor of Computer Applications (BCA), Rani Channamma University

Expected: Mar 2027

A. S. Patil College of Commerce, Vijayapura

### Pre-University Course (12th)

V. B. Darbar PU College, Vijayapura

## TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (DOM, ES6+), Responsive Web Design

Backend: Python

Tools & Version Control: Git, GitHub

Soft Skills: Communication, Problem-Solving, Time Management, Creativity, Critical Thinking, Willingness to Learn

## PROJECTS

### JobShield — Job Posting Scam Scanner

HTML, CSS, JavaScript

Link: [github.com/kartigp/jobshield](https://github.com/kartigp/jobshield)

- Built a rule-based scanner that flags common job-scam patterns — upfront fees, requests for bank/ID details, artificial urgency, MLM language — using a weighted regex rule engine.
- Designed a scoring algorithm that rates postings Low/Medium/High risk and renders an inline annotated view highlighting each flagged phrase.
- Built sample scam and legitimate postings for instant testing, with animated scan feedback and reduced-motion accessibility support.

### Personal Portfolio Website

HTML, CSS, JavaScript, Typed.js

Link: [github.com/kartigp/portfolio](https://github.com/kartigp/portfolio)

- Built a fully responsive personal portfolio site with an animated role-title, About, Skills, and Contact sections.
- Implemented a working contact form using Formspree for message handling.
- Built layouts with CSS Flexbox and media queries for a clean experience across screen sizes.

## ACHIEVEMENTS

- Designed, built, and deployed 2 personal projects (JobShield and Personal Portfolio Website) from concept through to a live, working product.
- Active GitHub contributor, maintaining public repositories that document project code and progress.

## PERSONAL QUALITIES

- Goal-Oriented Work Ethic: Committed to continuous learning and taking full ownership of assigned responsibilities.
- Effective Time Management: Balances academic coursework with independent project development.
- Clear Communicator: Comfortable explaining technical concepts and collaborating with others in a team setting.
